Indiana-Based IT Consulting Firm ENTAP Named to the Inc. Magazine List of America's 5,000 Fastest-Growing Private Companies

ENTAP also recognized as a top ten Indiana firm and ninth nationally among black entrepreneurs

INDIANAPOLIS (August 25, 2010) – ENTAP, an IT outsourcing firm specializing in [business systems consulting and ERP solutions](#), announces it has been named to the Inc. 5000, an exclusive ranking of the nation's fastest-growing private companies. The annual list recognizes that entrepreneurs represent the most important segment of the economy—America's independent-minded entrepreneurs. ENTAP ranked 516th overall and tenth among Indiana's fastest growing businesses. The consulting firm also ranked 45th in the IT services industry and ninth among successful black entrepreneurs nationwide.

The *Inc.* magazine rankings celebrate the creativity, dedication and hard work that entrepreneurs put into building their companies. Founded by President and CEO Tracy E. Barnes in 2004, ENTAP has grown from one to 20 employees and continues to prove itself as an emerging IT solutions firm boasting at least 100 percent year over year revenue growth. The Inc. rankings were based on revenue growth from 2006 to 2009, a period during which ENTAP experienced growth of more than 586 percent.

"Being ranked in the Inc. 5000, and nearly in the Inc. 500, truly is an honor," Barnes started. "It's also testament to the success that can be earned through hard work and a dedication to excellence in client services. I'm truly grateful to our team of highly talented professionals and technology experts that has contributed to our amazing growth."

The 2010 Inc. 5000 serves as a unique illustration of the profound changes taking place in the U.S. economy. Despite the fact that most of this year's measuring period of 2006 to 2009 took place during a recession, aggregate revenue among the companies on the list actually increased to \$321.6 billion, up more than 50 percent from previous year. With unemployment remaining stubbornly high, policymakers and business leaders will do well to look to the Inc. 5000 companies for fresh ideas on achieving growth and creating jobs, according to *Inc.* magazine.
